Mr. Peter Raspanti  
Iron City Vending  
1061 Merwin Road  
New Kensington, PA 15068

Dear Mr. Raspanti:

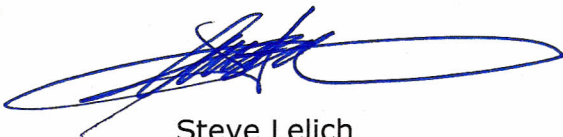

As we discussed, I am happy to write this letter of recommendation for you and for Iron City Vending that you might add to your permanent files.

You will recall that our initial meeting with you was done so in hopes that you could help us better understand the vending business. We were locked into an unfavorable contract with another vendor at that time, and our owner body looked to you for guidance and direction during a difficult period. You were very honest with your responses and your frank consultation allowed us to make several decisions that benefited our company for the long-term.

Looking back, when it became time to replace this vendor, we called you immediately and you and Iron City Vending delivered on every promise that was made, including the timely servicing of the machines that are scattered throughout our many locations. Your cooperative attitude and high level of professionalism were important and appreciated and your efforts immediately improved our level of customer service.

It is my personal opinion that you and Iron City Vending merit serious consideration from any company who might need the services of a reputable vendor and I recommend you very, very highly...

Sincerely,

Steve Lelich  
Chief Operating Officer
